Ac Voltage Rating:

440.0 volts

End Application:

Controller, motor e/i fscm 63705

Performance Type:

Semiautomatic

Operating Voltage Characteristic:

Full

Ambient Temp:

72.0 degrees fahrenheit

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Features Provided:

Circuit protection fuse

Product Name:

Electrical controller and wiring diagram

Phase:

Three

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541c0
