Torque Load Rating:

35.000 foot-pounds

Current Type:

Ac

Mounting Hole Spacing And Location:

Vertically mounted by (4) 3/8-16unc-2b equally spaced on 7.25dbc on the motor side, and by (4) 3/8-16unc-2b equally spaced on 5.88dbc on the gear box side

Product Name:

Brake, fail safe

Voltage In Volts:

120.0

Special Features:

Electrical or mechanical brake release, shaft size to torque coupler 0.749-0.750 in. Dia., shaft size for motor, receptacle size 1.125-1.126 in. Dia.

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T129-a
