Speed Adjustments:

0 to full speed

End Application:

Switchboard

Input Voltage Rating In Volts:

24.0

Power Rating:

8.0 watts

Product Name:

Governor type 701

Special Features:

Fpower supply rating: 18-40 vdc; actuator output: single; actuator current output: 0-200 ma; speed sensor: mpu; discrete input voltage: 24 vdc (external); programmer serial port: 4-20 ma current loop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54100
