Overall Length:

22.120 inches

Overall Height:

10.080 inches

Overall Width:

18.3000 inches

Actuation Method:

Magnetic

Fuse Accommodation Quantity:

2

Size Designator:

1

Duty Cycle:

Continuous

Operating Voltage Characteristic:

Full

Horsepower Rating:

5.000

Actuator Voltage:

230.0 dc

Fuse Current Rating In Amps:

10.0

Ambient Temp:

50.0 degrees celsius

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Features Provided:

Circuit protection fuse

Special Features:

Enclosure: waterspray protected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541b0
