**Overall Length:**

22.120 inches

**Overall Height:**

10.080 inches

**Overall Width:**

18.3000 inches

**Actuation Method:**

Magnetic

**Fuse Accommodation Quantity:**

2

**Size Designator:**

1

**Duty Cycle:**

Continuous

**Operating Voltage Characteristic:**

Full

**Horsepower Rating:**

5.000

**Actuator Voltage:**

230.0 dc

**Fuse Current Rating In Amps:**

10.0

**Ambient Temp:**

50.0 degrees celsius

**National Electrical Manufacturers Association Standards Design:**

Designed per nema std

**Features Provided:**

Circuit protection fuse

**Special Features:**

Enclosure: waterspray protected

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541b0
