Actuation Method:

Magnetic

End Application:

REFR-IG-ERA-TION

Size Designator:

Q

Operating Voltage Characteristic:

Full

Horsepower Rating:

5.000

Actuator Voltage:

208.0 ac

Load Protection Type:

Overload

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Phase:

Three

Special Features:

Open type 3 pole

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541c0
