Overall Length:

18.120 inches

Overall Height:

26.120 inches

Overall Width:

9.880 inches

Ac Voltage Rating:

440.0 volts

Frequency Rating:

60.0 hertz

End Application:

Controller ac

Duty Cycle:

Continuous

Mounting Configuration:

0.500 inch diameter grade 5 (min); torque to 90 lbs-ft

Operating Voltage Characteristic:

Full

Ambient Temp:

50.0 degrees celsius

National Electrical Manufacturers Association Standards Design:

Designed per nema std

Product Name:

Motor controller jp-5 defuel pump assembly

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541b0
