Hazardous Locations/environmental Protection:

Moisture resistant

Ac Voltage Rating:

Between 120.0 volts and 240.0 volts

Actuation Method:

Magnetic

End Application:

3kw generator set 98-831, 98-832

Performance Type:

Automatic

Duty Cycle:

Continuous

Operating Voltage Characteristic:

Full

Ambient Temp:

25.0 degrees celsius

Inclosure Feature:

Moisture proof

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Amp Size Rating:

100.0

Control Type:

Remote

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541d0
