End Application:

Iscs system 899300-301

Main Line Maximum Current Rating In Amps:

1.0

Main Line Maximum Dc Voltage Rating In Volts:

40.0

Product Name:

(inavy)digital sy (dslc)

Special Features:

Operating temperature: minus 40degrees to 70 degrees celsius; 18 watts; frequency: 45 to 66hz; 3 phase generator bus; calibration and diagnostics port: rs-422

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A17600
