**Ac Voltage Rating:**

Between 28.0 volts and 440.0 volts

**End Application:**

Panel, control

**Performance Type:**

Automatic and manual

**Fuse Accommodation Quantity:**

26

**Operating Voltage Characteristic:**

Full

**Fuse Current Rating In Amps:**

1.0 and 2.0 and 3.0 and 5.0 and 15.0 and 25.0

**Inclosure Feature:**

Totally enclosed

**National Electrical Manufacturers Association Standards Design:**

Not designed per nema std

**Switch Functional Positions:**

Automatic and off and on

**Product Name:**

Drawing)cg class 52 and above louver heater/blow-in door control box assembly type 1 and type (300-7486918)

**Special Features:**

Electrical shock hazard

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A541b0
