Ac Voltage Rating:

Between 28.0 volts and 440.0 volts

End Application:

Panel, control

Performance Type:

Automatic and manual

Fuse Accommodation Quantity:

26

Operating Voltage Characteristic:

Full

Fuse Current Rating In Amps:

1.0 and 2.0 and 3.0 and 5.0 and 15.0 and 25.0

Inclosure Feature:

Totally enclosed

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Switch Functional Positions:

Automatic and off and on

Product Name:

Drawing)cg class 52 and above louver heater/blow-in door control box assembly type 1 and type (300-7486918)

Special Features:

Electrical shock hazard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541b0
