Motor Controller - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6110-01-515-6348

Ac Voltage Rating:
Between 28.0 volts and 440.0 volts
End Application:
Panel, control
Performance Type:
Automatic and manual
Fuse Accommodation Quantity:
26
Operating Voltage Characteristic:
Full
Fuse Current Rating In Amps:
1.0 and 2.0 and 3.0 and 5.0 and 15.0 and 25.0
Inclosure Feature:
Totally enclosed
National Electrical Manufacturers Association Standards Design:
Not designed per nema std
Switch Functional Positions:
Automatic and off and on
Product Name:
Drawing)cg class 52 and above louver heater/blow-in door control box assembly type 1 and type (300-7486918)
Special Features:
Electrical shock hazard
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A541b0
