## NSN 6110-01-516-3829

Motor Controller - Page 1 of 1 View Online at https://aerobasegroup.com/nsn/6110-01-516-3829 **Overall Height:** 18.000 inches **Overall Width:** 12.000 inches Ac Voltage Rating: 120.0 volts Frequency Rating: 60.0 hertz **End Application:** Controller 12 **Fuse Accommodation Quantity: Duty Cycle:** Continuous **Operating Voltage Characteristic: Fuse Current Rating In Amps:** 10.0 **Ambient Temp:** 50.0 degrees celsius **Inclosure Feature:** Dripproof National Electrical Manufacturers Association Standards Design: Not designed per nema std **Amp Size Rating:** 27.0 **Features Provided:** 

Circuit protection fuse
Product Name:
(drawing)master plan sz1 ac magnetic controlle (27161)
Phase:
Three
Special Features:
Depth: 8.00in; warning plate: controller is energized from more than one source
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

**Fiig:** A541b0
