Overall Length:

18.120 inches

Overall Height:

9.140 inches

Overall Width:

12.120 inches

Frequency Rating:

60.0 hertz

Fuse Accommodation Quantity:

2

Operating Voltage Characteristic:

Full

Fuse Current Rating In Amps:

10.0

Ambient Temp:

50.0 degrees celsius

Inclosure Feature:

Dripproof

National Electrical Manufacturers Association Standards Design:

Not designed per nema std

Amp Size Rating:

68.0

Phase:

Three

Special Features:

440 volts; wall mounted; drawing name - lighting contactor (23 mcm) assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541c0
