Overall Depth:

3.570 inches

Overall Height:

7.500 inches

Overall Width:

5.750 inches

End Application:

Consolidated ground support equipment power plant, electric; mobile electric power plant

Special Features:

Interface between electronic control modul (ecm) and the digital data reader (ddr) for purpose of displaying diesel engine parameters and malfunctions stored in the ecm; the diagnostic module (dm) shall flash out codes stored in the ecm when the diagnostic swith is toggled; the connection of the dm to the ecm shall be made via detroit diesel connector 023513052; adjustments shall be provided for the setting engine idle speed above 600 rpm, engine rated speed to produce 400 hz+/- 2 hz generator output and engine overspeed at 2050+/- 50rpm; the dm shall provide a dc signal to the engine fault module for low oil pressure and high engine temperature stutdown; the dm shall operate on 22-29 vdc voltage range; apply p/n 21269 d624-2516a permil-std-130 appro. Where shown.

Style Designator:

Rectangular, flush mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
