Overall Length:

27.125 inches

Overall Height:

35.625 inches

Overall Width:

13.812 inches

Frequency Rating:

60.0 hertz

Switch Position Quantity:

3

End Application:

Cvn; ship service system

Mounting Configuration:

Bulkhead mounting using 1/2inch bolts

Current Rating In Amps:

300.0

Inclosure Feature:

Dripproof

Switch Action Type:

Magnetic contactor

Switch Off Position:

Not included

Manual Operation Facility:

Provided

Voltage In Volts:

450.0

Phase:

Three

Special Features:

Ainsulation testing of connected shipboard cables with a 500volt dc megger will not damage the bus transfer; repair parts included; emergency swith, manual & auto switches; magnetic relay op spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-q
