End Application:

Vehicle navigation and attitude reference system (vnars) mark ii

Product Name:

Distribution box

Special Features:

Accepts vehicle 28 vdc; accepts 24 vdc battery and contains its charging circuit; contains over-current protection on input power; over-voltage and over-current protection for three disconnect from input power; has a main power switch to disconnect from input power; battery voltmeter and power led indicators

Supplementary Features:

Contains two circuit cards and externally resettable circuit breakers; current: 1 amp when providing 14 amps output; dimension (millimeters) : length, 160 width, 110 height; weight: 5 kilograms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A17600
