End Application:

Nuclear power plants

Input Current Type:

Ac

Input Voltage Rating In Volts:

Between 400.0 and 480.0

Input Phase:

Three

Product Name:

Altivar 71

Special Features:

Lcd keypad style; motor power rating 7.5kw; modbus and canopen; degree of protection ip20; 10hp; input voltage 400/480vac; class a integrated emc filter; input/output phase is 3-phase; ampere rating 17.6a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A540z0
