Speed Adjustments:

0 to full speed

Hazardous Locations/environmental Protection:

Dripproof

Ac Voltage Rating:

440.0 volts

Frequency Rating:

Between 30.0 hertz and 373.3 hertz

Actuation Method:

Magnetic

Performance Type:

Automatic and manual

Size Designator:

5hp

Duty Cycle:

Continuous

Operating Voltage Characteristic:

Full

Horsepower Rating:

5.0

Actuator Voltage:

120.0 ac

Load Protection Type:

Overcurrent and short circuit

Ambient Temp:

50.0 degrees celsius

Inclosure Feature:

Dripproof

Control Type:

Local and remote

Product Name:

Drive, variable frequency

Phase:

Three

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541b0
