**End Application:**

Cutmaster 52

**Product Name:**

(inavy) regulator

**Special Features:**

Description: regulator with knob and mounting nut; note: 9-0015 regulator, if the serial number of the power supply is prior to no. 05078755 then kit number 9-0201 will be needed to replace not only the regulator (9-0115) but the logic pcb as well. Another way to tell if the kit is needed is to see if the regulator has a small diameter tube coming out of the bottom fitting. If there is a transducer and wire harness instead of the tube, the kit is not needed.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A540z0
