**Ac Voltage Rating:**

Between 115.0 volts and 230.0 volts

**Performance Type:**

Automatic

**Operating Voltage Characteristic:**

Reduced

**Product Name:**

Supco pow-r-pac hard start/relay capacitor motor start assist kit

**Special Features:**

Installs in seconds across run capacitor terminals; contains relay and start capacitor for extra starting torque; increase starting torque up to 300.0%; applications include room a/c units; residential and commercial psc a/c units and heat pumps, for all psc a/c units from 4000-120000 btus (1/2 to 10hp), can be used on 120-288 vac units, low voltage and hard starting compressors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541c0
