Thickness:
4.062 inches single winding
Covering Material:
Cotton single covering materia
Outside Width:
2.250 inches single winding
Outside Length:
4.812 inches single winding
Impregnation Material:
Varnish
Conductor Turn Quantity:
18.50 single winding
<b>Conductor Wire Width:</b>
0.325 inches single winding
<b>Conductor Wire Thickness:</b>
0.162 inches single winding
Coil Inside Length:
3.375 inches single winding
Coil Inside Width:
0.812 inches single winding
Coil Type And Quantity:
1 flat
Terminal Type And Quantity:
2 round wire lead all terminals
Fsc Application Data:
Except engine
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

**Fiig:** A243a0
