**End Application:**

6115-00-118-1243

**General Description:**

C/o housing, load bank w/cable assembly 2, load reject relay 1, wiring harness 3, capacitor 6, thermo switch 1, diode semiconductor device 4, heatsink 2, terminal board 1, heating element 24, control panel assembly 1, includes mtg hardware, designed for 60 kw 50/60 hz and 400 hz

**Fsc Application Data:**

Generator set, diesel engine

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
