Steam Turbine Generator Set - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/6115-00-965-6561 **Mounting Type:** Base **Steam Operating Pressure:** 1050.0 pounds per square inch gage **Overall Length:** 141.000 inches **Overall Height:** 154.750 inches **Overall Width:** 72.000 inches **Current Type:** Ac **Frequency Rating:** 60.0 hertz **Accessory Component Quantity: Steam Tempurature Rating:** 940.0 degrees fahrenheit **Accessory Controlling Agency:** Electric machinery mfg co. **Accessory Identifying Number:** Electric machinery dwg no. 359b016 **Identifying Number:** Dwg no. 140b085 **Manufacturer Name:** Electric machinery co Stage Type: Multiple Ac Wattage Rating: 1500.0 watts **Line To Line Voltage In Volts:** 450.0 **Power Factor In Percent:** 0.8 **Excitor Type:** Self-excited **Excitor:** Not included **Prime Mover Manufacturer Name:** Worthington corp

Turbine Design Type: Impulse

NSN 6115-00-965-6561

T322-a

Steam Turbine Generator Set - Page 2 of 2

Exhaust Type:	
Condensing	
Turbine To Generator Coupling Method:	
Gear train	
Accessory Component Name:	
Static excitation and voltage regulation system	
Ambient Tempurature In Deg Celsius:	
50.0	
Tempurature Rise Rating In Deg Celsius For Continuous Operation:	
100.0	
Phase:	
Three	
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:	
No	
Fiig:
