Overall Diameter:

6.500 inches

Mounting Configuration:

Eight 0.177 in. Diameter through holes equally spaced on 5.875 in. C to c bo circle

Special Features:

Surface treatment: chemical conversion coating, mil-c-5541, ps249

Material:

Aluminum alloy

Material Specification:

Qq-a-601, alloy 355, temp t71, ecl 322a sta federal specification 1st material response and qq-a-596, class 6, cond t71, ecl 322c sta federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537s0
