Body Length:

17.250 inches

Body Width:

9.750 inches

End Application:

Generator set, model mep108b, 200 kw, fscm 30554

Mounting Configuration:

Four 0.310 in. Diameter holes spaced 9.000 in. C to c on w, spaced 14.250 in. C to c on lg

Body Depth:

0.187 inches

Special Features:

Material: plastic, acrylic sheet, mil-p-5425

Special Markings:

Warning high voltage, cover must be installed prior to operating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
