Environmental Protection:

Moisture proof

Accessory Component Quantity:

7

Accessory Identifying Number:

211-0426 drawing no.

Mounting Configuration:

Four holes evenly spaced in the four ears for mounting.

Document Title:

Cadam system

Accessory Component Name:

End bell assembly.

Special Features:

Assembly shell withstand 1500 volts rms, 60hz applied between winding and ground for 1 minute.

Functional Description:

This part to be used on military approved generators.

Type/model Designation:

Mfr-44940

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537s0
