General Description:

The 50kw trailer mounted generator is an extra quiet mobile generator that has many automatic safety features. The generator is capable of producing 50k (62.5kva) at 60hz on a continuous basis. The generator is voltage regulated to +/- 2% and is capable of producing 1 and 3 phase power at 120/208/240/277 and 208/240/480 volts respectively. The generator comes equipped with 20, 30 and 50 amp receptacles. A control panel mounted on the generator allows for easy operation, monitoring and diagnostics
