Overall Height:

9.83 inches

Overall Length:

9.45 inches

Overall Width:

8.5 inches

End Application:

Engine generator

Enclosure Feature:

Open

Mounting Method:

Flange

Mounting Facility Type And Quantity:

2 unthreaded hole

Length Of Shaft From Housing:

3.25 inches single end

Connection Type And Voltage Rating In Volts:

28.5 line to line high output

Product Name:

Generator, engine

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
