Wattage Rating:

500.000 watts

Special Features:

Automated and integrated plug and play design; anode and cathode input gas handling; explosion proof combustible gas sensors; stoichiometric control; dew point humidifiers; exhaust gas treatment with automatic programmable back pressure control; gas-water segregation; exhaust cooling; programmable electronic load; auxillary temperature inputs (8-channel with sensors); auxillary voltage inputs (16 channels with cables); liquid stack cooling and heating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
