End Application:

Transformer assembly, 01-508-8829

Criticality Code Justification:

Agav

Special Features:

Parallel connection 42.5; series connection 21.25; weight lbs 26; operating ambient temp. 80 degrees max.; industrial grade using silicon iron for core and heavy insulated synthetic film magnet wire with class "130" rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
