**Frequency Rating:**

50.0 hertz single component or 60.0 hertz single component

**Inclosure Type:**

Partially enclosed, half shell

**Winding Operating Voltage:**

380.00 ac pounds per hour dry single component single primary and 575.00 ac pounds per hour with retaining chain single component single primary

**Special Features:**

All copper windings; iec type finger safe terminals; class 1, general use, isolating transformer, 30 pounds

**Terminal Type And Quantity:**

1 screw

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
