## NSN 6120-01-527-9139

Power Transformer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6120-01-527-9139

Frequency	Rating

50.0 hertz single component or 60.0 hertz single component

Inclosure Type:

Partially enclosed, half shell

## **Winding Operating Voltage:**

380.00 ac pounds per hour dry single component single primary and 575.00 ac pounds per hour with retaining chain single component single primary

## **Special Features:**

All copper windings; iec type finger safe terminals; class 1, general use, isolating transformer, 30 pounds

## **Terminal Type And Quantity:**

1 screw

Shelf Life:

N/a

**Unit Of Measure:** 

Demilitarization:

No

Fiig:

A058b0
