Overall Length:

21.000 inches

Overall Height:

7.000 inches

Overall Width:

19.000 inches

End Application:

Cab assembly control; test set, jet aircraft engines

Installation Design:

Rack

Input Phase:

Single single operating power rqmt

Input Voltage Rating:

230.0 ac pounds per hour wet 3rd alternate operating power rqmt

Features Provided:

Over temperature protection and over current protector

Ventilation Design Type:

Single fan

Product Name:

Inavy)power supply assembly, a.C.; h/w37-t1a; a/f32t-10b; a/e37t-36a

Special Features:

0deg c to 55deg c op temp; light gray color; front panel meter 0-300vac voltmeter; ouput power min 750va from 55-65vac, 110-130vac, or 220-260vac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
