Overall Length:

13.812 inches

Overall Height:

6.250 inches

Overall Width:

6.875 inches

Current Type:

Dc and dc and dc and ac

Dc Voltage Rating:

380.0 volts and 225.0 volts and 225.0 volts

Mounting Configuration:

Rack mtd

Voltage Rating:

1.3 volts and 1.3 volts and -25.0 volts and 6.0 volts

Rectifier Type:

Synchronous self-rectifying vibrator

Output Frequency Rating:

100.0 hertz

Output Current Rating:

0.180 amperes and 0.070 amperes and 0.045 amperes

Input Voltage Rating:

24.0 volts

Current Rating:

1.0 amperes and 0.200 amperes and 0.005 amperes and 2.0 amperes

Regulated Output Current:

Not provided and not provided and not provided

Regulated Current:

Provided and provided and not provided and not provided

Input Current Rating:

10.0 amperes

Radio Frequency Filter:

Provided

Phase:

Single

Special Features:

Tropicalized; jcens, radio set, type no. An/vrc-6 and an/vrc 19

Specification Or Standard:

Dy-98/g type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T321-c
