Overall Length:

13.813 inches

Overall Height:

6.250 inches

Overall Width:

6.875 inches

Current Type:

Dc

Dc Voltage Rating:

420.0 volts

Voltage Rating:

380.0 volts and 225.0 volts and 225.0 volts and 1.3 volts and 1.3 volts and -25.0 volts

Rectifier Type:

Metallic disc

Output Current Rating:

280.0 milliamperes

Input Voltage Rating:

12.0 volts

Current Rating:

180.0 milliamperes and 70.0 milliamperes and 45.0 milliamperes and 1.0 amperes and 200.0 milliamperes and 5.0 milliamperes

Regulated Output Current:

Not provided

Auxiliary Ac Output:

Not provided

Regulated Current:

Not provided and not provided and not provided and not provided and provided and not provided

Input Current Rating:

21.0 amperes

Radio Frequency Filter:

Provided

Fsc Application Data:

Converters, electrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T321-c
