General Description:

Output of motor generator, ac, 120 and 108 or 240 and 416v, 400 cycles, 3 phase, 60 kw, regulated; output of power supply, dc, 28v, 10 amp, unregulated; input to motor generator, ac, 416v, 60 cycles, 3 phase, 77 kw; input to power supply, ac, 416v, 60 cycles, single phase, 300 w; semiconductor type rectifier; o/a dim., 77 in. Lg, 47 in. Wd, 44 in. H; rf filter not included; four 11/16 in. Diameter mtg holes spaced 48 in. C to c; 9002ak

Specification Or Standard:

B size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
