General Description:

Ooutput of motor generator, ac, 120 and 208 or 240 and 416 v, 400 cycles, 3 phase, 60 kw, regulated; output of power supply, dc, 28 v, 10 amp, regulated; input to motor generator, ac, 416 v, 60 cycles, 3 phase, not rated for w or va; input to power supply, ac, 416 v, 60 cycles, 3 phase, not rated for w or va; metallic disk rectifier; over-all dimensions, 72 in. Lg, 47 in. W, 44 in. H; rf filter incl; four 11/16 in. Diameter mtg holes spaced 48 in. Centers parallel to shaft axis; general purpose

Specification Or Standard:

B size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
