Overall Height:

23.900 inches

Overall Length:

37.000 inches

Accessory Components:

Voltage regulator

Duty Cycle:

Continuous

Temperature Rating:

40.0 ambient degrees celsius

Product Name:

No brush frequency convertor

Special Features:

Input, output current is 7.3 amperes; 88.5 percent motor full load efficiency; v belt drive; silver blue enamel paint; zinc chromate primer; shipping weight 555 pounds; net weight 460 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
