**Overall Height:**

23.900 inches

**Overall Length:**

37.000 inches

**Accessory Components:**

Voltage regulator

**Duty Cycle:**

Continuous

**Temperature Rating:**

40.0 ambient degrees celsius

**Product Name:**

No brush frequency convertor

**Special Features:**

Input, output current is 7.3 amperes; 88.5 percent motor full load efficiency; v belt drive; silver blue enamel paint; zinc chromate primer; shipping weight 555 pounds; net weight 460 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A271a0
