Overall Length:

18.500 inches

Overall Height:

8.500 inches

Overall Width:

4.500 inches

Major Components:

Cable harness 1; capacitor electrolytic 2; chassis 1; clamp cable 1; grommet 1; inductor 1; rectifier 1; resistor fixed 1; retainer capacitor 2; terminal 1; terminal board 1; transformer 1

Mounting Configuration:

Mtd by hinge located at one end

Fsc Application Data:

Transponder set, navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
