Terminal Quantity:

2

Terminal Type:

Connector, receptacle

Width:

19.000 inches

Length:

24.000 inches

Input Phase:

Three

Frequency Regulation Percent:

0.01

Accuracy In Percent:

0.010

Input Frequency Rating:

60.0 hertz

Output Frequency Rating:

400.0 hertz

Line To Ground Voltage:

120.0 volts

Mounting Method:

Rack

Cooling Method:

Integral fan

Volt-ampere Rating:

5.0 kilovolt-ampere

Line To Line Ac Output Voltage Rating:

220.0 volts

Ac Input Voltage Rating:

220.0 volts

Overload Protection:

Provided

Radio Interference Filter:

Not provided

Phase:

Three

Special Features:

Input connector ms3102a-24-22p; output connector ms3102a-24-22s

Height:

17.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T320-h
