Overall Length:

7.000 inches

Overall Height:

0.937 inches

Overall Width:

4.062 inches

Major Components:

Heat sink 2, printed wiring board 1, resistor fixed 4, transistor 2

Mounting Configuration:

Plug in and two unthreaded holes

Special Features:

Jumper across r103, r104

Fsc Application Data:

Power supply

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
