Overall Length:

14.000 inches

Overall Height:

5.750 inches

Overall Width:

5.250 inches

Major Components:

Capacitors 3; grommets 9; nuts 17; resistors 31; screws 36; tube, electron 7; tube, shield 2; washers 22

Mounting Configuration:

Eight no. 10-32 screws irregularly spaced

Fsc Application Data:

Test set, radar, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
