Overall Length:

12.500 inches

Overall Height:

4.625 inches

Overall Width:

7.562 inches

Special Features:

Components: power supply, regulator, cover, base plate, heat sink, transformer, inductor, terminal, connector, capacitor, resistor, thyristor, transistor, diode, rectifier, relay; total components: 97; connector mounting method

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
