Overall Length:

14.000 inches

Overall Height:

20.000 inches

Overall Width:

16.000 inches

Special Features:

Gac voltage rating first operating power rqmt 115.0 volts and second operating power rqmt 440.0 volts ; frequency rating: first operating power rqmt 60.0 hertz and second operating power rqmt 60.0 hertz ; filter: included; rectifier type: metallic; hermetic protection: not provided; rectification method: full; dc voltage output rating: 48.000 v dc first power output; dc current rating output: 20.000 v dc first power output; pahase: single

Specification Or Standard:

Nr class

Fsc Application Data:

Rectifying equipment, electrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
