Overall Length:

20.625 inches

Overall Height:

17.188 inches

Overall Width:

17.313 inches

Component Quantity:

1

Locking Device:

Not included

Component Controlling Agency:

Jcens

Component Name:

Amplifier power supply

Component Identifying Number:

Am/682/tcc-3 type no.

Handle Quantity:

2

Handle Location:

Each side

Special Features:

External plates provide means of stacking transit case on top or below other transit cases

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Case, power supply for telephone carrier

Reference Number Differentiating Characteristics:

Less cover assembly sig dwg no. Sc-c-62846

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T358-a
