Overall Length:

11.813 inches

Overall Height:

9.017 inches

Overall Width:

7.267 inches

Component Quantity:

1

Locking Device:

Included

Component Controlling Agency:

Jcens

Component Name:

Power supply

Component Identifying Number:

Pp-109/gr type no.

Locking Device Type:

Any acceptable

Special Features:

Chassis locking thumb screw on rear of case

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Power supply, radio, except navigation except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
