Body Length:

9.750 inches

Body Width:

5.000 inches

Body Height:

0.063 inches

Mounting Configuration:

Six 0.203 diameter mtg holes irregularly spaced

Special Markings:

Designation plate marked /f-207/, /f-208, / /spare 1/16 amp h v, / stamped /danger high voltage/

Material:

Plastic, phenol-formaldehyde

Material:

Plastic phenol-formaldehyde

Fsc Application Data:

Airborne radar transponder set, jcens type no. An/apx25

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T23700
