Overall Length:

11.500 inches

Overall Height:

7.372 inches

Overall Width:

11.496 inches

Major Components:

Cboard, terminal 1; brace 1, cover assembly 1; lead, electrical 1; panel, backing 1; plate, designation 1; plate, reinforcement 2; support assembly 1; transformer 1; turrent terminal 1; wiring harness 1

Mounting Configuration:

Panel mounted

Fsc Application Data:

Console, battery control center, guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
